Councilmember Flemming stated she agrees, however, she has always considered 750 feet as a recommendation. Councilmember Dowe responded she was informed by staff that it is not a burden to staff to produce a list of 1,000 feet versus 500 feet. Ms. Powell stated the amendment would be for the developer led neighborhood meeting and not the public notice requirement. Councilmember Dowe requested the public notice requirement also be reviewed. Councilmember Brasington agreed with the recommendation and stated he believes both should be consistent.

After discussion, the motion to amend carried unanimously.

Councilmember Dowe moved, seconded by Councilmember Gibson, to amend five business days to ten regular calendar days regarding meeting notification. Ms. Powell stated the amendment expounds upon the requirements of the current ordinance and that everything else is strongly encouraged. Councilmember Flemming recommended using ten business days instead due engaging community involvement.

Councilmember DeWorken referred to complaints from the small business community and recommended using seven business days initially. Councilmember Dowe responded that she preferred to leave the motion at ten calendar days and referred to the amendment being temporary in nature while the land management ordinance is being reviewed and updated.

After discussion, the motion to amend carried unanimously.

Councilmember Dowe referred to staff reports and stated there are instances where no approval or denial is provided. Councilmember Dowe asked if Council is still okay with that latitude. Assistant City Manager Shannon Lavrin responded staff will need to review the matter further and report back to Council at second and final reading.

After discussion, the original motion, as twice amended, carried unanimously.

*(Presented by Parks, Recreation and Tourism Director Angie Prosser)*

Councilmember Dowe moved, seconded by Councilmember Stall, to approve first and final reading.

Councilmember Stall raised concern with the term “awarding a contract” and moved, seconded by Councilmember Flemming, to amend the Resolution to authorize the City Manager to engage in negotiations and reaffirm the appropriateness invoking the procurement policy section referenced. The motion carried unanimously.

Councilmember Brasington asked if the final contract would come back before Council for a vote, and City Manager John McDonough responded that it would. Councilmember Gibson stated this will allow the City to continue with negotiations and to obtain more information and that he is supportive of it. Councilmember Brasington complimented staff on the information provided for Council’s review and for carrying out Council’s directive. Councilmember Gibson shared his appreciation as well but shared his concerns regarding the use of the pedestrian bridges.

Councilmember Dowe asked if the action allows for the City to negotiate the contract versus the County who issued the bid package. Mr. McDonough responded it does and stated the next phase for the City will be the active management of the construction of the bridges, not the trails. Councilmember Dowe asked if the intention is for the timeline of the trails and the timeline of the bridges to meet by December 2022. Parks, Recreation and Tourism Director Angie Prosser responded that it is. Mr. McDonough advised the City has a letter of commitment setting forth the duties and responsibilities of both parties. Councilmember Dowe asked if it is a fair statement that the City is buttoned up on this, and Ms. Prosser responded that it is.

Councilmember Brasington requested a timeline containing all the critical path milestones between now and December 2022. Mr. McDonough responded the City will have it available moving forward. Mayor White stated a project kickoff would be a good idea and that individuals need to know the City is committed to this project. Councilmember Stall requested affirmation that the definition of the bridges includes the bridges, entrances, exits, and pilings, and Ms. Prosser responded that it does.

After discussion, the motion, as amended, carried unanimously.
